

SAYS BOLSHIEVISM HIT MEXICO FIRST

Implanted by Same American Influences as in Russia, Doherty Testifies.

HE WARNS U. S. ON OIL Assets Prominent Men in Country Received Carranza Money.

Special Despatch to The Sun.
WASHINGTON, Sept. 11.—The seeds of Bolshevism were planted in Mexico even before we had heard of it in Russia, and by the same American influences that carried it to Russia," said Edward J. Doherty, head of the Mexican Petroleum Company, testifying to-day before the Senate Sub-Committee of Foreign Relations investigating Mexican conditions.

Mr. Doherty devoted much of the day to the story of oil development in Mexico, particularly insisting that it is of the utmost importance that the United States encourage its promoters and investors to bring oil production, wherever it may be in the world, under American control. He said that the United States should encourage its promoters and investors to bring oil production, wherever it may be in the world, under American control. He said that the United States should encourage its promoters and investors to bring oil production, wherever it may be in the world, under American control.

BRITISH RESOLUTE TO QUIT RUSSIA

Churchill Denies Change in Policy, Delayed by Aiding Refugees.

NO TROOPS TO PETROGRAD Impossible to Effect a Junction With Kolchak Before Winter.

By the Associated Press.
LONDON, Sept. 11.—Winston Spencer Churchill, Secretary for War, in a statement issued to-day, denies that there has been any change in the British policy to evacuate north Russia.

Mr. Churchill admits that it will be impossible to effect a junction with Admiral Kolchak before winter. He denies that British troops are employed, or that the British Government has accepted any responsibility in operations against Petrograd.

Mr. Churchill's statement was issued in reply to criticisms and disclosures concerning the Government policy in Russia. He declares that the decisions on which the policy of evacuation is based are irrevocable.

FRANCE STIRRED BY CARDINAL'S MISSION

See Move by Vatican to Dominate Asia Minor.

By a Staff Correspondent of The Sun.
Copyright, 1919, all rights reserved.
PARIS, Sept. 11.—Significance is attached here to reports which have reached diplomatic circles of the imminent departure from Italy of Cardinal Gustini, the newly created envoy extraordinary of the Vatican to Jerusalem.

The new Papal emissary to the Holy Land appears to be going to his post with the support of the highest official diplomatic authorities in Italy. He will make the voyage to Palestine on an Italian warship lent by the Government for that purpose, and will be accompanied by high officials representing the King.

Many observers in Paris think it is another link in the chain of evidence pointing to a project of vast proportions emanating from the Vatican and tending toward the restoration of Catholicism in Asia Minor and northern Africa, from which it has disappeared with the centuries of Moslem growth.

So far there has been no indication of the effect of this plan in French Governmental or clerical circles nor any hint that these reports have any foundation. It is said, however, that the influence of the French Catholics, however considerable this may be, could never overcome the French official objections to religious interference with the Moslem populations of north Africa, of which France is the protector.

AMERICAN MISSION SEEKS TURK FACTS

Investigators, Headed by Gen. Harbord, Goes Into Interior.

UNITY IS GREATEST NEED Staff of Steamer Martha Washington at Work on Preliminary Data.

By the Associated Press.
CONSTANTINOPLE, Sept. 7 (delayed).—The American mission, headed by Major-General G. Harbord, left for the interior this morning. It is preparing to give to the United States thorough and unbiased information regarding Turkey and Armenia. Until late Saturday the staff on the steamer Martha Washington was at work cataloguing the preliminary data gathered at Constantinople.

The Americans, who have studied the situation for many months, assert that the whole issue is that the 25,000,000 people of the empire should have good government and freedom of religious belief under one mandatory, thus stopping the agitation for a separate Armenia or any partition of the empire.

It is pointed out that Americans have encouraged the Armenians' political aspirations and also that the British are anxious to have the United States take over the Armenian mandate, thereby forming a screen for Persia against the Caucasus.

It is urged in this connection that while five millions of Greeks and Armenians have suffered, it is also true that twenty-five millions of Turks have been misused for centuries.

The allied commission in Smyrna continues to take evidence concerning the situation. Rear Admiral Bristol representing the United States. Within the city order prevails, but guerrilla fighting is going on outside with the Greeks, who are said to have 80,000 troops. The Turks number only 10,000.

Thus far little trouble has been reported in Adalia province, where the Italians are reported to be anxious to see the Greeks leave Smyrna, where they are reported to be anxious to see the Greeks leave Smyrna, where they are reported to be anxious to see the Greeks leave Smyrna.

REBELLION STARTS IN WESTERN THRACE

Turks and Greeks Fight Bulgarian Rule.

PARIS, Sept. 11.—A delayed Associated Press despatch from Athens, dated September 2, says the Turks in western Thrace have revolted and have been joined by the Greek remnants there.

Since last month, when it became known that the American delegates to the Peace Conference favored the maintenance of Bulgarian rule over western Thrace, on the ground that Bulgaria must have an outlet to the Aegean, the Turkish and Greek populations have shown open determination forcibly to resist such decision, and have placed on record their wish for annexation to Greece.

The Bulgarian authorities, having only a small Bulgarian minority to rely upon and insufficient troops to keep the population in hand, have flooded the country with Comitatist, the irregulars of Macedonian notoriety, and have placed under arrest Muslimian deputies of the Bulgarian Parliament, who had protested to the Peace Conference against Bulgarian rule.

The Bulgarians have endeavored to have the population sign declarations to the conference in favor of the maintenance of the Bulgarian regime. This brought the revolt to a head at Mailikos and Shadji, near Goulladina, where the Turks came into armed conflict with Bulgarian troops and Comitatists, and a number were killed on both sides.

FRENCH MUNICIPAL STRIKE IS GENERAL

All Workers in Several Suburbs of Paris Have Quit Their Jobs.

Special Cable Despatch to The Sun from the London Times Service.
Copyright, 1919, all rights reserved.
PARIS, Sept. 11.—The strike in the municipal services of the suburbs of Paris appears to be general. There were two funerals at Vincennes to-day and the police had to do duty for strikers.

Out of ninety employees and outdoor workers of the Vincennes Mairie only thirty-three are at their posts.

In the neighboring community of Saint Mandé only road menders, grave diggers and school caretakers were out. Ostrich officials made an attempt to collect the usual dues at the gates, but were prevented from doing so by the strikers. All they could do was to take note of the vehicles that passed with a view to collecting dues later. After a time, in order to avoid incidents, the Mairie doors were closed and notice put up to that effect.

At St. Mandé the strikers were so far successful yesterday that they prevented all municipal work except burial and marriages. No one could be officially born in the commune.

MANCHESTER, Sept. 11.—The life of this the second city in France was partially paralyzed to-day by a strike of the tramway, gas and electrical workers in sympathy with the striking dock workers. The decision to aid the dock workers was enthusiastically agreed upon at a monster mass meeting of members of the various unions held in the open air before the Labor Exchange last night.

The dock strike, which has been causing a daily loss of millions of francs, thus far has been without violence. A settlement of the trouble seems impossible at present, the men having refused all offers of their employers to compromise, even temporarily.

MEXICO, Sept. 11.—A strike of machinists in progress here has resulted in the complete stoppage of both passenger and freight traffic on the railways in this section. It is reported that the employees of the entire system in Alacapan-Lorraine are planning to go out in support of the machinists.

HOUSE MOVES TO IMPEACH BURLINSON

Continued from First Page.

ark, N. J. The commission certified a list of eligibles on February 17, 1918. From that time to this, although the order is plain, the Postmaster-General has refused to submit the names of the highest man on the list, F. J. Beck, for appointment, but is keeping in office as a temporary appointee John F. Sinnott, Jr., the fourth man on the list. The law question as to the eligibility of Mr. Beck because he served a whole term as postmaster under the Administration of President Taft and for a short time under the Wilson Administration.

"This is the situation. If the ratings fixed by the Civil Service Commission do not suit the Postmaster-General he often submits those for rating to the commission, and if the commission has the temerity to insist upon its ratings he refuses to carry out the executive order and submit the highest name on that list for appointment."

Mr. Lehigh then referred to a statement to the press of Mr. Burlinson's saying he had at no time tried to influence the commission in any way in filling post office vacancies. He then quoted from a letter he had received from the Postmaster-General in regard to the Newark case which said:

"This matter has been taken up by the First Assistant Postmaster-General in personal discussions with the commission and the commission has adhered to their original ratings." He continued:

"Therefore the statement of the Postmaster-General that he had not taken up these ratings of prospective postmasters with the commission in an endeavor to get them changed to suit the views, convenience and desires of the Post Office Department is deliberately and untruthfully false."

Representative Brand, Democrat, asked Mr. Lehigh if he could name a case since the Presidential order was promulgated where the applicant who received the highest ratings was turned down for a man of lower grade.

KOLCHAK REPORTS ADVANCE

Offensive Carried on Along Entire Siberian Front.

OMSK, Sept. 11.—General headquarters of the Kolchak army announced to-day that the offensive was being carried forward successfully along the whole Siberian front. The enemy is being driven back everywhere with severe losses, the announcement says, and has been compelled to abandon prisoners and important booty.

The announcement of the general offensive was first made yesterday, when stubborn fighting was reported in the direction of Yalovskovsk and Karginsk. These two towns are about 200 miles west of Omsk. The result of the fighting was reported to have been the retreat of the Bolsheviki forces, with the loss of many prisoners and much material.

\$17,000,000 for Alaskan Road.
WASHINGTON, Sept. 11.—Favorable report without amendments was to-day ordered by the Senate Territories Committee on the House bill appropriating \$17,000,000 additional for the completion of the Alaskan railroad.

LONDON, Sept. 11.—In giving vent to his feelings on his discharge an old soldier wrote to his late "Colonel": "Sir, after what I have suffered you can tell the army to go to hell."

In due course he received the following: "Sir, any suggestions or inquiries as to movements of troops must be entered on army form 122XVZ, copy of which enclose."

Saks

CLOTHES OF CUSTOM QUALITY

WE are privileged to announce this morning that we have the largest stock with which we have ever commenced a Fall season. And every stitch of it came from our own work-rooms, not from somebody else's outside factory.

Properly Priced

Saks & Company

BROADWAY AT 34th STREET

At Saks To-day

An Important Sale of

European and American

Silk Scarves

At \$1.65

affords liberal selection in the choicest cravats a man can buy—here or overseas.

Nothing finer shown in London shops for Fall, none better ever left an American loom. Tailored with custom-care in a variety of soft, rich satins, novelty silks and basket weaves, in the most exquisite shadings in the alchemy of color—as different from the generality of scarf patterns as day is from night.

Virile stripes in dark and light colorings, all-over effects that show to best advantage in the confines of a knot, and a host of particularly original two color spot designs that are among the richest the loom has woven.
